

Discipline/Industry/Domain

Scene: Personal Level

Actors: Main participants in the scenario. At least one of these actors is using Generative AI with harmful intent. Write the names or a descriptive term for each actor. Indicate the role they play.

Person/People:

Person/People:

Person/People:

Role:

Role:

Role:

Context: The environment where the scenario takes place.
At most, two locations. Describe the context's social-emotional climate.

Location:

Location:

Climate:

Climate:

Activity: What is the actor doing with generative AI?
Share what they are producing with generative AI.
If you know the tool they are using (like ChatGPT), share it.

Activity:

Design (AI):

Intent: What is each actor trying to accomplish with generative AI for harm?

Intention:

Beneficiary(ies): Who benefits most from the products of generative AI use?
List these people or entities by name or with a descriptive term.

Person/People/Entity:

Person/People/Entity:

Person/People/Entity:

Victim(s): Who suffers most from the effects of generative AI use?
List these people or entities by name or with a descriptive term.
